Management Standards

ISO 9001:2008

Quality management system

- ISO 9001 is the internationally recognized standard for an organization's internal Quality Management.
- An organization's actions to ensure that its products or services satisfy its customers' quality requirements and complies with any regulations applicable to those products or services

Research shows that ISO 9001 registered companies gain an immediate competitive advantage over their rivals, and consistently achieve more sales and profits It is based on the following 8 principles:

- **CUSTOMER FOCUS:** Since organizations depend on customers, their needs must be understood and met with the aim of enhancing customer satisfaction.
- **LEADERSHIP:** Every organization must establish its strategic objectives and then create an environment to achieve its goals. Leadership is about enforcing the best way of working whenever possible.
- **INVOLVEMENT OF PEOPLE:** An organization comprises of people. Employees at all levels must be fully involved to achieve organizational goals.
- **PROCESS APPROACH:** A process is a series of steps and actions necessary for transforming inputs to outputs. ISO advocates the need to identify and manage processes to achieve greater efficiency.
- **SYSTEM APPROACH TO MANAGEMENT:** The systems approach looks at the organization as a collection of inter-related processes that need be managed to improve effectiveness and efficiency. The benefit of this system is that it provides staff with a better understanding of their roles and responsibilities. It also defines how specific activities should operate within the rest of the system.
- **FACTUAL APPROACH TO DECISION MAKING:** Organizations must base their decisions on logical or intuitive data that has been analyzed. This requires rigorous documentation of key activities.
- **CONTINUAL IMPROVEMENT:** Every activity, every process, every procedure can be improved. ISO encourages the culture for continual improvement within the organization.
- **MUTUALLY BENEFICIAL SUPPLIER RELATIONSHIPS:** Suppliers are an important stakeholder within the ISO context as very it is the suppliers who create value for the customers. Therefore it is important to ensure that supplier relationships be managed in a mutually beneficial manner.

OHSAS 18001:2007

Occupational Health and Safety Series

- Better control your company's occupational health and safety risks, improving its performance in the process.
- Helps you safeguard your most important assets — your employees.

Its key requirements and benefits are:

❑ **HEALTH & SAFETY POLICY** endorsed and authorized by the organization's top management

❑ **PLANNING** for hazard identification, risk assessment and risk control. Organizations need to ensure compliance with legal requirements.

❑ **IMPLEMENTATION & OPERATION** by documenting OH&S responsibilities and providing adequate resources including training for personnel.

❑ **CHECKING & CORRECTIVE ACTION** to monitor and measure OH&S performance. Accidents, incidents, non-conformances must be investigated. Corrective and preventive actions must be taken.

❑ **MANAGEMENT REVIEW** by top management to review the suitability, adequacy and effectiveness of the OH&S management system.

ISO 14001:2004

Environmental management systems

- ISO 14001 is the internationally recognized standard for the environmental management of businesses.

- It prescribes controls for those activities that have an effect on the environment. These include the use of natural resources, handling and treatment of waste and energy consumption

Its key requirements and benefits are:

- ❖ **IDENTIFY ENVIRONMENTAL IMPACT** of any activity, product, or service
- ❖ **MEET LEGAL REQUIREMENTS**
- ❖ **DEVELOP AN ENVIRONMENTAL POLICY** to demonstrate the commitment to protecting the environment
- ❖ **SET ENVIRONMENTAL OBJECTIVES** for all relevant functions and levels within the organization that is consistent with the environmental policy.
- ❖ **IMPLEMENT ENVIRONMENTAL POLICY** by creating programs and allocating responsibility for implementing the environmental policy.
- ❖ **IMPROVE ENVIRONMENTAL PERFORMANCE** by monitoring, measuring, auditing and reviewing the Environment Management System. Taking appropriate corrective and preventive actions.

ISO 22000:2005

Food safety management systems

*ISO 22000 is an international certification standard that defines the requirements of food safety management systems. It can be used by all organizations, in the supply chain from farmers to food services, to processing, transportation, storage, retail and packaging.

*ISO 22000 specifies the requirements for a food safety management system that combines well-recognized key elements to ensure food safety along the food chain, up to the point of final consumption.

Benefits :

- Provides employees with an understanding of the importance of producing safe food .
- Reduces spoilage costs.
- Helps reduce and possibly eliminate food safety liabilities
- Improves consistency in product quality and safety
- Improves business that relies on compliance with HACCP
- Gives customers increased confidence in your food safety
- Improves competitiveness and makes your company a supplier of choice

ISO 27001 : 2005

Information Security Management System

- The objective of the standard is to "provide a model for establishing, implementing, operating, monitoring, reviewing, maintaining, and improving an Information Security Management System".

- The design and implementation of an organization's ISMS is influenced by their needs and objectives, security requirements, the process employed and the size and structure of the organization

The key benefits are:

- ✓ **DEFINE ISMS POLICY** including the approach to risk assessment, identifying, analyzing and evaluating security risks and controls.
- ✓ **IMPLEMENT AND OPERATE THE ISMS** by developing a risk treatment plan to manage the organization's information security risks, implement security controls, educational programs and security procedures.
- ✓ **MONITOR AND REVIEW THE ISMS** by using procedures and controls, performing regular internal audits, updating information security plans.
- ✓ **MAINTAIN AND IMPROVE THE ISMS** by taking preventive & corrective actions.

Why ISO certification

- Documentation system
- Increase stability in business
- Time saving up to 40-50%

Katara official receives ISO 9001:2008 award from a representative of MS Certification Company.

Katara—an initiative to preserve and showcase the richness of Qatar's culture and heritage—has won international recognition for what its officials termed its sheer commitment to quality and efficiency.

The ISO 9001:2008 certificate for quality management systems in cultural affairs came as the organisation continues to make rapid strides in presenting indigenous values to the outside world in an interesting and informative way.

The certificate was awarded based on Katara's implementation of standard quality management to meet the guidelines of ISO 9001:2008.

The cultural village received this recognition from MS Certification Company, one of the companies adopted internationally in the field of application of quality management standards.

The certificate was received by Dr Khalid bin Ibrahim al-Sulaiti, General Manager of Katara, at its headquarters in Doha in the presence of Sherif Taher, General Manager of MS Certification.

Khalid said: "This is an achievement that we are extremely proud of. This recognition reinforces our resolve to build an integrated system of processes that would raise the level of performance and improve the operations of internal and external communications. As our eyes remain firmly fixed at the future, we remain focused on constantly enhancing our quality standards which is key to Katara's success story."

Sherif Taher said: "Katara has truly earned the ISO certificate for its outstanding quality management of cultural affairs and this goes back to the continued hard efforts of the team."

Barwa Real Estate gets ISO certification

Tuesday, 07 August 2012 02:57

Barwa Real Estate officials celebrating the event.

DOHA: Barwa Real Estate has been awarded with the ISO 9001:2008 quality management certificate from MS Certification, an internationally recognised company for implementing the standards of quality management. The company celebrated the occasion during a Ramadan Sohour event organised for staff members and their families on Sunday at "Katara".

Abdullah Abdulaziz Al Subaie - Member of the Board of Directors and Chief Executive Officer of Barwa Real Estate, commented: It is with great honour to announce that Barwa Real Estate has gone through the ISO process and has been certified with ISO 9001:2008. It's another achievement which Barwa adds to its successes".

Sherif Taher - General Manager of MS Certification said: "Barwa Real Estate has worked hard this year to implement high quality standards.... As General Manager of MS Certification I can confirm that Barwa Real Estate has developed an excellent quality management system throughout the company and it is with great pleasure that I present the ISO 9001:2008 quality management systems certificate to Barwa Real Estate".

Al Attiya Motors gets ISO certification

Sherif Taher, Certification Manager of MS Certification Company (centre), presenting the ISO certificate to Mohammed Maali, CEO of Al Attiya Motors (third left) at KIA Motors Building in Doha yesterday. Other officials seen are (from left): Ayman Al Sami, Sales Manager, Charif Fadel, Commercial Manager, Mohammed Al Masry, Certification Manager, Hanafi Hijab, Finance and Admin Manager, and Hosam A Shadi, Sales and Marketing Manager.

TCC celebrates ISO certification treble

Publish Date: Saturday, 12 May, 2012, at 12:09 PM Doha Time

TCC officials with the three ISO certificates recently awarded to the company

Technical Cadres Contracting Company (TCC) recently celebrated a milestone in the organisation's growth after achieving three ISO certifications.

The achievement makes TCC one of the few companies in Qatar to have achieved certifications in all three standards simultaneously within such a short time of its existence, said a spokesperson. The company received ISO certificates in quality management systems, environmental management standards and occupational health and safety management. General manager of TCC, Firas Mahmoud Ali Jabr al-Kiswani said the success of the company is down to the efforts of all its employees, promising that they will continue to strive for excellence and improvement at all times.

"It is a big achievement for any company to achieve these three certificates at once. These achievements confirm our commitment to values of work such as quality, environment, health and safety, besides our responsibility to provide efficient service for our clients," he noted. "We have ensured customer satisfaction by providing high quality services in the field of civil works related to

electrical energy development through partnership with our customers' successful projects, and we have completed the required global specifications," he added.

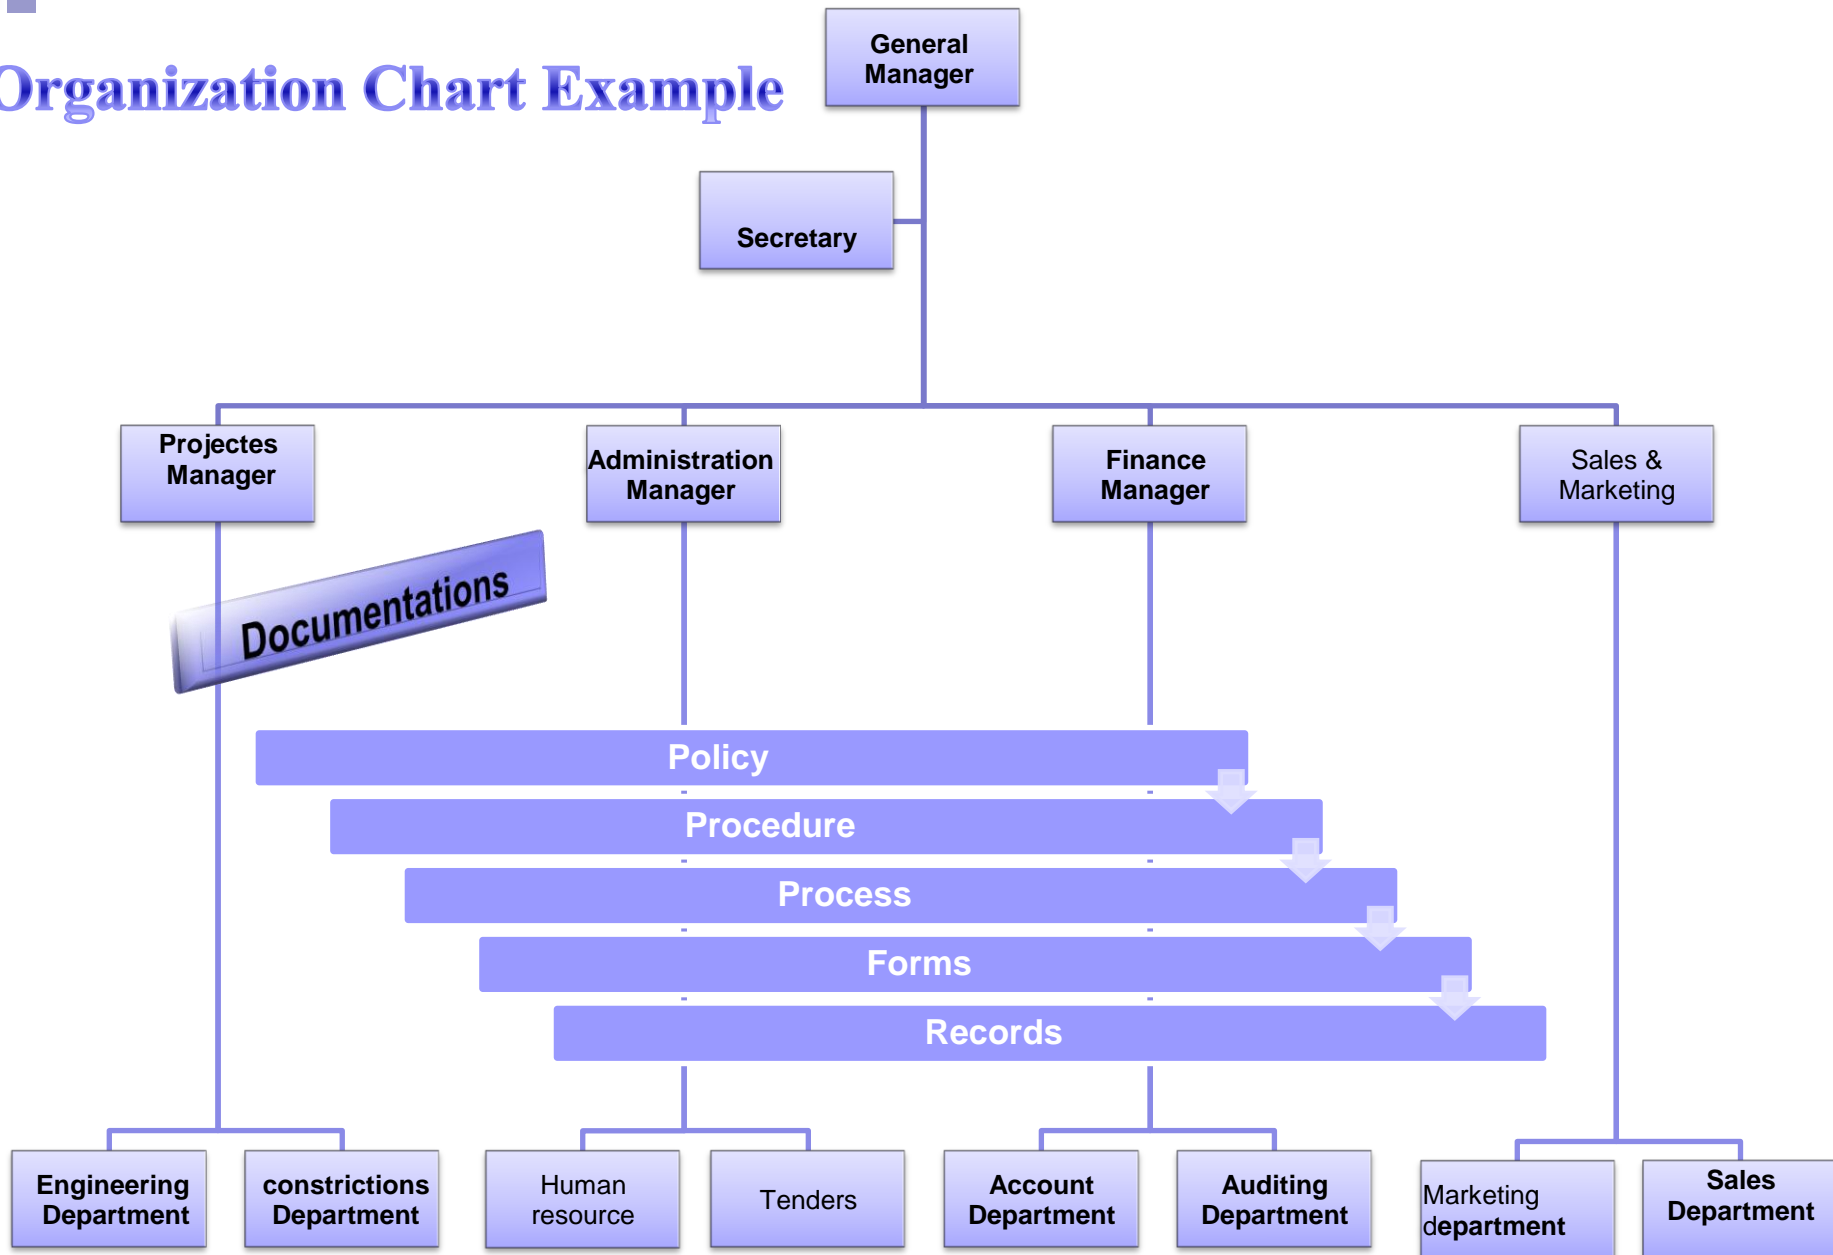

Certification representative, Sherif Taher said that an audit confirmed that international standards have been applied throughout the company's work.

MS-Certification Schedule

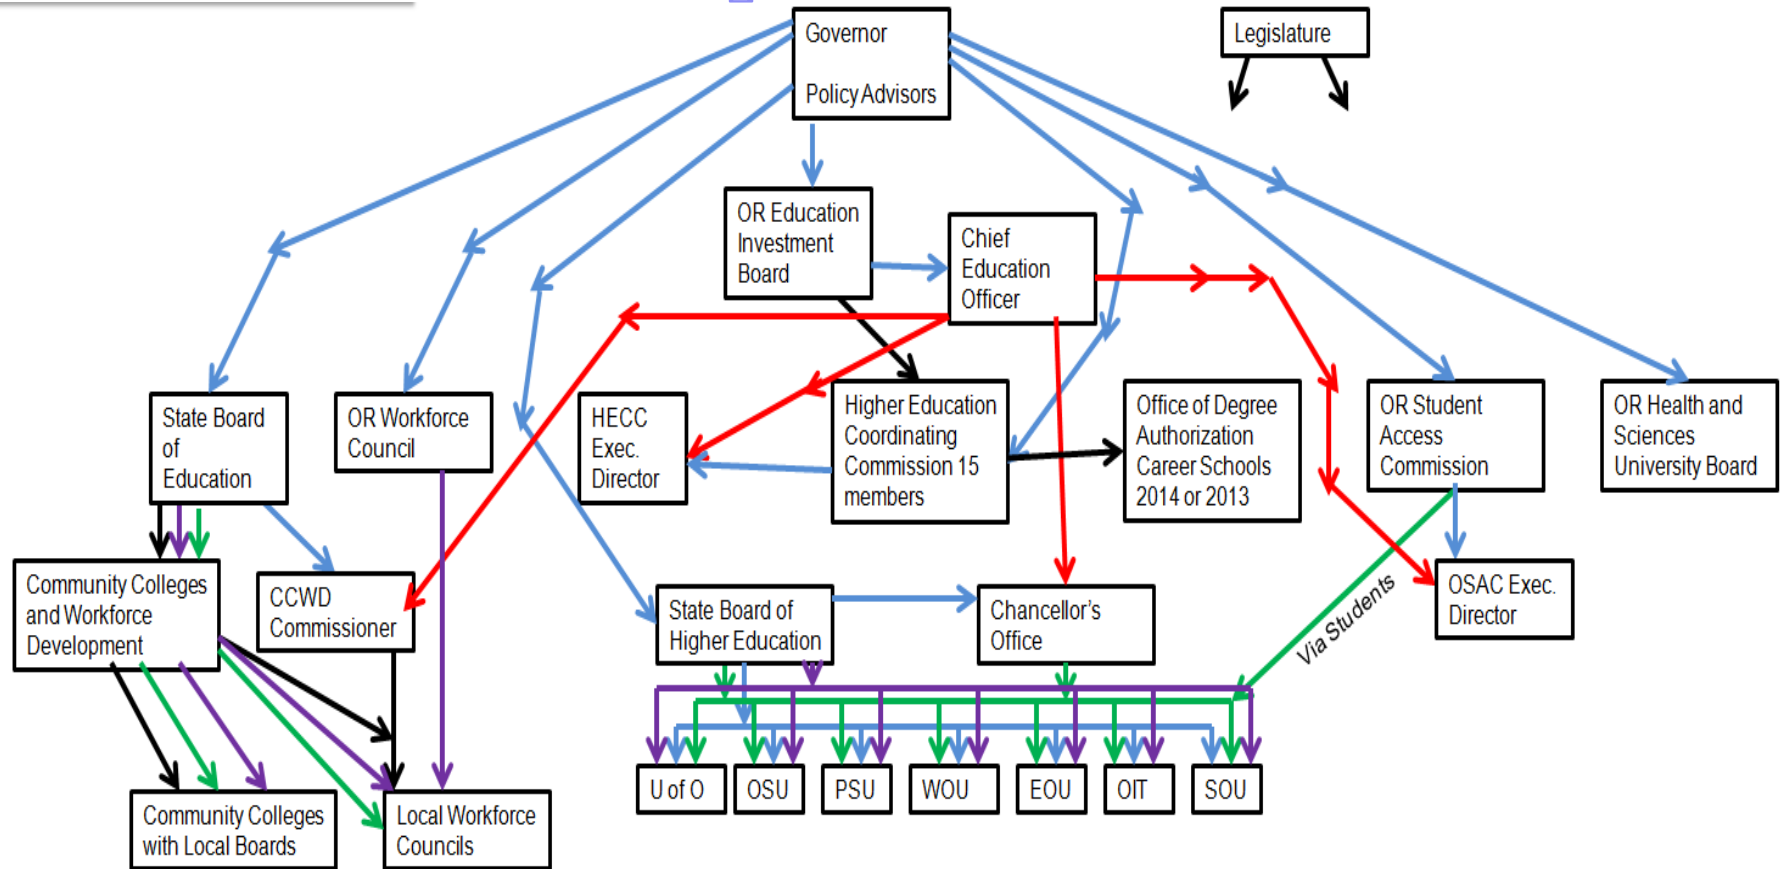

| Step | Requirement |
|-------------------|---|
| Gap Analysis | Organization chart, manuals & tour |
| Training | Internal Audit & Quality Manager |
